- 1) Based on four-quarter cumulated sums of both saving and gross disposable income (adjusted for the change in the net equity of households in pension fund reserves).
- 2) Financial assets (net of financial liabilities) and non-financial assets. Non-financial assets consist mainly of housing wealth (residential structures and land). They also include non-financial assets of unincorporated enterprises classified within the household sector.
- 3) The profit share uses net entrepreneurial income, which is broadly equivalent to current profits in business accounting.
- 4) Based on the outstanding amount of loans, debt securities, trade credits and pension scheme liabilities.
